

The auxiliary data are available online:

1. **Natural Earth**

<http://www.naturalearthdata.com/>

Free vector and raster map data of countries, coastline, rivers, lakes and many more Earth features

2. **Global Administrative Areas**

<http://gadm.org/>

The dataset of the location of the world's administrative areas is freely available for academic and other non-commercial use. Redistribution, or commercial use, is not allowed without prior permission. No data is provided with this CM SAF package, however, it might be a useful resource of information.
